The Journal

The *Mathematics Education Research Journal*, the official journal of the Mathematics Education Research Group of Australasia (MERGA), is an international journal which provides a forum for the publication of research on the teaching and learning of mathematics at all levels.

Submission of high quality papers in any area of mathematics education research is invited. The *Journal* aims to promote the exchange and dissemination of research across a wide range of approaches and methodologies. It is editorial policy that no preference will be given to any one particular methodology.

Reviews of research may also be submitted, but these should go beyond a mere reporting of a collection of individual studies and should provide a creative synthesis of work in the field of enquiry being reviewed.

A regular feature of the *Journal* will be the review of books and other publications.

Readers wishing to submit manuscripts for publication should refer to the notes on the inside of the back cover.

Subscriptions

A subscription to this journal is provided as part of MERGA membership. Personal Membership costs \$40 and institutional membership \$100, plus overseas postage where applicable. Enquiries regarding membership should be sent to PRODEC, University of Western Sydney, P. O. Box 555, Campbelltown 2560, Australia.
(E-mail: prodec@uws.edu.au).

Enquiries about back copies of the *Mathematics Education Research Journal*, and past Proceedings of MERGA Conferences, should be directed to PRODEC at the above address.
